Your Best Healthcare

RAYMO Now Lighter. Even Smaller.

Compact, Intelligent, Full-Featured Mobile X-ray – Redefined & Going Further

DRGEM's next-generation mobile X-ray combines compact design, intelligent AI-powered features, and a full range of clinical capabilities. Engineered for maximum mobility and precision, it redefines the standard of mobile radiography, enabling faster workflows, smarter operation, and superior imaging wherever you need it.

RAYMO's Smart & Specialized Features

Smart User Preference Recognition

RAYMO uses RFID recognition to instantly apply user-specific settings, ensuring a more comfortable, efficient, and tailored experience for every operator, with RADMAX enabling auto login with user privilege.

Personalized Automatic Tilting Monitor

Personalized Automatic Handlebar Positioning

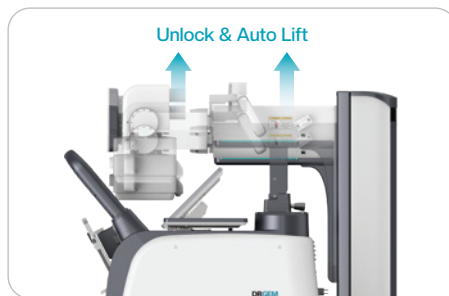

Personalized Automatic Driving Sensitivity

Designed for Effortless Control

RAYMO prioritizes usability with features that reduce physical strain and streamline operation, helping radiographers work more comfortably and efficiently.

Haptic Feedback for SID Positioning

Parking Unlock Assist

Easy Tube Rotation

Built-in Camera for Safe Driving

Tilting Touchscreen on Tube

RAYMO's Key Features

RAYMO is a **compact mobile DR system** that delivers **reliable imaging** with **enhanced mobility, safety, and workflow efficiency**.

Remote Controller

Collimator Lamp, Ready, and Exposure control

Multi Purpose Storage

Space for accessories

Tilting Touchscreen on Tube

Auto Collimator

Smart SID Control Handle

Provides vibration guidance for accurate SID positioning

Dual Detector Tray

Supports both adult and pediatric detectors

Storage Compartment

Convenient space for essential accessories

Smooth Driving & Precise Control

Dual BLDC motors for easy handling

Auto-Tilting Touch Monitor

RFID-based personalized tilting function for user convenience

Auto-Adjustable Handle Bar

RFID-based personalized adjustment for easy maneuverability

Anti-Theft Protection

Secures the detector against unauthorized removal

Built-in Driving Camera

Safe driving with day & night vision

① Power Button

② Emergency Stop

③ Detector Lock Switch

④ Wired Exposure Switch

⑤ Wireless Exposure Switch

⑥ Battery Status Display

⑦ Barcode Scanner
Fast patient data input

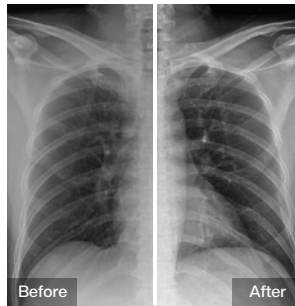

⑧ RFID
Personalized user access

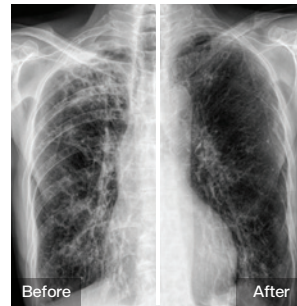

RADMAX: Complete Digital Imaging Software

RAYMO integrates RADMAX software, providing an intuitive interface and advanced digital image processing for efficient workflow and high-quality imaging. It is also compatible with lightweight detectors with optional glass-free detector choices, ensuring durability and portability.

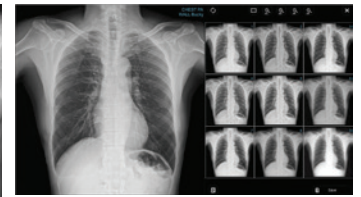

- Anatomical View-Based Image Processing
- Scatter Reduction
- Bone Suppression
- 9 Image Presets
- AI Diagnostic Assistance
- Software DAP
- Auto Voice support

Smart Control Features

DRGEM's RAYMO features Smart Control via tablet, enhancing safety, efficiency, and ease of use.

Smart Control allows operators to manage the system wirelessly from a safe distance, reducing radiation exposure and enabling precise positioning in tight spaces.

Real-time video, voice streaming, and multilingual guidance improve communication and workflow in any clinical setting.
